$$\frac{1}{2} \left( \frac{1}{2} \right) = \frac{1}{4} \quad \frac{1}{2} \left( \frac{1}{2} \right) = \frac{1}{4} \quad \frac{1}{2} \left( \frac{1}{2} \right) = \frac{1}{4} \quad \frac{1}{2} \left( \frac{1}{2} \right) = \frac{1}{4} \quad \frac{1}{2} \left( \frac{1}{2} \right) = \frac{1}{4}$$

$$\frac{d}{dt} \left( \frac{\partial L}{\partial \dot{x}} \right) = - \frac{\partial L}{\partial x}$$
[illegible]

Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: the control group and the experimental group. The control group was divided into two subgroups: the control group and the control group. The experimental group was divided into two subgroups: the experimental group and the experimental group.

$\frac{1}{2} \left( \frac{1}{2} \right) = \frac{1}{4}$

• *Why?* Most of the time, the *why* is the *what* that is being done. For example, if the *what* is "the company is going to launch a new product," the *why* is "the company is going to launch a new product."

1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Lichtenthaler (1987). The total chlorophyll content was determined by the method of Arar and Cook (1980). The carotenoid content was determined by the method of Lichtenthaler and Weil (1983). The total phenolic content was determined by the method of Singleton and Rossi (1965). The total flavonoid content was determined by the method of Zhishen et al. (1999). The total protein content was determined by the method of Lowry et al. (1951). The total amino acid content was determined by the method of Kjedahl (1882). The total sugar content was determined by the method of Dubois and Gilles (1950). The total lipid content was determined by the method of Folch et al. (1957). The total nucleic acid content was determined by the method of Burton (1956). The total mineral content was determined by the method of Ashby et al. (1984). The total organic acid content was determined by the method of Saito and Teraoka (1990). The total alkaloid content was determined by the method of Harborne (1997). The total tannin content was determined by the method of Gallardo and Lopez (1998). The total terpenoid content was determined by the method of Kondo et al. (1999). The total steroid content was determined by the method of Kondo et al. (1999). The total glycoside content was determined by the method of Kondo et al. (1999). The total saponin content was determined by the method of Kondo et al. (1999). The total alkaloid content was determined by the method of Harborne (1997). The total tannin content was determined by the method of Gallardo and Lopez (1998). The total terpenoid content was determined by the method of Kondo et al. (1999). The total steroid content was determined by the method of Kondo et al. (1999). The total glycoside content was determined by the method of Kondo et al. (1999). The total saponin content was determined by the method of Kondo et al. (1999).
